

T13 High temperature glassfibre insulated thermocouple wire -60°C to 750°C

Insulation	
Wire and jacket	Each wire and the overall jacker high temperature glassfibre braided
Shape	Flat
Insulation	Varnish impregnated
Humidity resistant	Poor
Temperature range	-60°C up to 750°C
Conductors	
Thermocouple grade	Solid conductors, laid parallel
Conductor size	0.2mm, 0.5mm, 1.0mm
Calibration	K, J, N
Accuracy	According IEC 60584 / ANSI MC96.1
Colour code	According thermocouple calibration IEC, ANSI, BS etc.
Options	
Calibration certificate	Batch certificate
	Calibration certificate by RvA, UKAS or BELAC
Minimum order quantity	Reel with 500 meter
